Genoa, August 25.

ON the 23d arrived here the Ship Port-Mahon, John Coker Maſter, from Tunis; which Maſter reports, that he left there Admiral Baker with ſix Britiſh Men of War, and that from thence the ſaid Admiral deſigned to ſail to Tripoli. By Letters from Leghorne of the 21ſt Inſtant we learn, that the Portugueſe Squadron deſigned to reinforce the Venetian Fleet was ſtill taking in Proviſions, in order to proceed in a few Days on their Voyage to the Levant.

Vienna, Aug. 26. Letters from the Imperial Army commanded by Prince Eugene of Savoy give an Account, That on the 11th Inſtant they received a Confirmation that the Grand Vizier, and the Aga of the Janiſaries, were killed in the late Battle; and that after the Burial of the former, the Turks choſe the Baſhaw of Belgrade to ſucceed him in the chief Command of the Army, till the Grand Signior's Pleaſure ſhould be known. That the Turks after their Defeat, paſſed the Save near Belgrade in ſuch Hurry and Diſorder, that in the Crowd a good Number of them were thruſt over the Sides of the Bridge, and were drowned in the River. On the 12th the Waggons and Carriages, as alſo the Tranſport Veſſels, were loaded at the Camp near Futack, with Part of the Artillery, Ammunition, and other Neceſſary Stores for the Siege of Temeſwaer; the Carriages by Land being ordered to march with the Army, and the Tranſport Veſſels to proceed on the Danube to the Tibiſcus, and paſs up the latter, under the Convoy of our Saicks, accompanied by a Colonel with One Thouſand detached Foot and Four Pieces of Cannon. On the 13th, it happening to be very bad Weather, the Departure of the ſaid Tranſport-Veſſels was deferred till the Day following. Orders had been diſpatched before to Eſſeck, for fitting out with all Expedition the two Ships of War which were arrived there from Vienna, and ſending them to the Mouth of the Tibiſcus, there to have their Station till further Order, and in the mean time to ſecure and defend that Paſſage. All neceſſary Diſpoſitions were likewiſe made for the March of the Army the next Day: And proper Orders being left with Baron Leffelholtz, General of the Artillery, Governour of Peterwaradin, as alſo a Troop of Horſe being added to his Garriſon, the whole Army with the Artillery broke up from Futack, and began their March on the 14th in the Morning before Day break. On the 16th, Prince Eugene advanced with the Cavalry and the Artillery to Szenta, where the Infantry led by Field-Marſhal General Count Heiſter, was to come up and join him on the 18th, in order to paſs the Tibiſcus and approach Temeſwaer; Field-Marſhal General Count Palfi, with a ſtrong Detachment of Horſe and Foot advancing before, and laying Bridges over the Moraſſes. We have Advice that the Baſhaw of Temeſwaer was dangerouſly wounded in the late Battle, and his Son killed, as alſo that part of a Detachment of his Garriſon was killed in that Action, and part retired to Temeſwaer wounded. The Imperial Reſident Fleiſchman having been removed from Semendria to Belgrade, is kept there under a Guard, and no Perſon is allowed Acceſs to him.

Peterwaradin, Aug. 18. Yeſterday arrrived from Eſſeck two Imperial Men of War, which having taken in ſome Proviſions here, proceeded towards Titul, to take their Station at the Place where the Tibiſcus falls into the Danube, and to ſecure the Paſſage of our Tranſports up that River for the Army, againſt the Enemy's armed Veſſels; they are to be followed thither by our other Ships of War. In the mean time the Artillery, Ammunition, and Proviſions, already ſent from hence on the 14th, with Bridges of Boats, and Saicks, are ſafe arrived in the Tibiſcus. 'Tis confirmed from Belgrade, that but a few of the Janiſaries eſcaped from the late Battle, in which, beſides the Grand Vizier and the Aga of the Janiſaries, 15 Baſhaws were killed; and a Baſhaw named Omir-Agiſch is ſince made Grand Vizier. There was great Deſertion from among the Turkiſh Troops, which was ſaid

ſaid to be occaſioned chiefly by the Scarcity and Dearneſs of Proviſions. The Turkiſh Frigates are lying at the little Iſland near Belgrade.

Geneva, Aug. 28. We have Advice from Turin, that the King of Sicily deſigns to ſet out from Rivoli to Morrow for Savoy; that he will come firſt to Thamiers, and after ten Days ſtay there proceed to Chambery, where the Caſtle is ordered to be fitted up for his Reception by the 12th of September. His Majeſty will be attended by two Regiments of Horſe, which are to winter in Savoy, where are now no other regular Troops than two Regiments of Foot formed out of the Militia of that Country ſome time ago. Within theſe few Days ſome Students of this Place being upon the Lake, taking the Diverſion of Shooting, went aſhore for ſome Refreſhment at Veſenas, a Village in Savoy, where one of them happening to kill a Hen, the People (tho' he offered to pay largely for it) ran to Arms, and calling to their Aſſiſtance the Guards which reſide there for ſecuring the Duty on Salt, fell upon the Students and beat and diſarmed them; one was mortally wounded and died the Day after, being a Son of M. Dauphin, a Member of the Council, and one of the Majors of this Town: The Students in their Defence fired upon the Guards, and wounded one of them dangerouſly. We are in ſome Concern to hear how this Matter will be repreſented to the King of Sicily, and what Notice his Majeſty will think fit to take of it. A Burgher of this Town, named Rey, was ſeized ſome Days ago for counterfeiting the Stamp on French Piſtoles, by which they are made Current at a certain Rate above the intrinſick Value: The French Reſident is very preſſing to have him puniſhed with Death according to the Laws of France; and many are of Opinion that Regard will be had to that Reſident's Inſtances. About 60 French Proteſtants, who by the Interceſſion of the King of Great Britain have been lately diſcharged from the Gallies to which they had been condemned for the ſake of their Religion, arrived here ſome Days ago from Marſeilles: The Canton of Bern has ſent a Deputy hither, to take Care of them in their Paſſage through that Canton: He is ordered to defray the Expences of their Journey as far as the Borders of Zurich, and then to pay to each of them thirty Crowns. The Canton of Zurich is diſpoſed to treat them with the like Humanity and Charity; and the Deſign is to conveigh them to the new Colony of French Proteſtants which the Duke of Saxe-Weymar has encouraged to ſettle in his Country. Charitable Contributions for them are remitted hither from Holland and other Parts. The Canton of Bern is fortifying Iverdun on the Lake of Neufchatel, deſigning to make a ſtrong Town of it becauſe of its favourable Situation.

Berlin, Sept. 1. The Court is ſtill at Wuſterhauſen; but Orders have been given to have every thing in readineſs for the Stag-Hunting at Goltz againſt the 20th Inſtant. Advices from Mecklenbourg of the 25th paſt, ſay all the Ruſſian Troops were in Motion to embark. The Poliſh Confederates having demanded Leave to patrouille along the Oder in Sileſia, on pretence of Advice that Troops were coming from Saxony and other Places againſt them; Generel Haſlinger, who Commands there for the Emperour, has abſolutely refuſed it, and declared, That if any of their Parties ſhould enter on thoſe Territories, the Guards had Orders to fire on them: He has likewiſe given Directions at all the Bridges and Ferries on the ſaid River, that no Pole ſhould be ſuffered to paſs.

The Maſter, Wardens, and Aſſiſtants of Trinity-Houſe of Deptford-Strond, do give Notice, That at the Requeſt of the Navigation trading to the Weſtward, and for the Security of all Ships paſſing through the Channel, they have caus'd to be erected two round Light-Houſes of Stone upon Portland, in the County of Dorſet, diſtant about two Thirds of a Mile from the Bill of Portland, and when brought in, one will ſtand in a Line due North and South from the ſaid Bill and Race of Portland: And that Fire-Lights will be kindled in the ſaid two Houſes on next Michaelmas-day, being the 29th of September, 1716. from which Time the Duties granted by Letters Patents for Erecting and Maintaining the ſame, will commence and become payable.
